Warrant for Town Meeting.

To F. W. Sanborn, a citizen of the town of Norway, in the County of Oxford and State of Maine, Greeting:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of Norway qualified by law to vote in town affairs, to assemble at Norway hall in said Norway on Monday, the 7th day of March next at 10 o'clock in the forenoon to act on the following articles, to wit:

Art. 1. To choose a Moderator to preside over said meeting.

Art. 2. To choose a Town Clerk for the ensuing year.

Art. 3. To choose a Board of Selectmen, for the ensuing year, to have charge of the buildings for the ensuing year.

Art. 19. To see what sum of money the town will grant and raise to be expended for insurance on school property, and for apparatus and appliances for the ensuing year.

Art. 26. To see if the town will instruct its Superintending School Committee to continue to insure any but village and Lake school property.

Art. 21. To see what sum the town will grant and raise for rent, light and heat of an office for the Superintendent of Schools.

Art. 22. To see if the town will authorize the purchase of a lot of land for a school yard in Milletville opposite the present location of the Milletville schoolhouse, and vote to move said schoolhouse across the road on to such lot, as recommended by the Superintending School Committee.

Art. 23. To see what sum of money the town will grant and raise for the support of a free high school for the ensuing year.

Art. 24. To see if the town will instruct the Superintending School Committee to maintain a school in Crockett Ridge, Milletville, Pierce and Frost Hill neighborhoods or either of them for the ensuing year.

Art. 25. To see what sum of money the town will grant and raise for instruction in music and drawing in common schools of twenty-five pupils or more for the ensuing year.

Art. 26. To see if the town will grant and raise the sum of \$147.75 to balance the deficit in the Repairs account.

Art. 27. To see if the town will vote to raise a committee, who shall be charged with the duty of investigating the conditions under which a Carnegie Library may be obtained for the town of Norway, to ascertain whether a trustee.

Art. 43. To see what action the town will take relative to a general re-valuation of the real estate of the town.

The Selectmen give notice that they will be in session at the Assessor's office for the purpose of receiving names and correcting the list of voters, on Saturday, the 5th day of March, 1910.

Given under our hands this 19th day of February A. D., 1910.

GEO. W. HOLMES, } *Selectmen*
GEO. H. DUNN, } *of*
A. J. MILLETT, } *Norway.*

INMATES AT TOWN FARM, JAN. 31, 1910.

Lola Bennett..... age 49 Gertrude G. Merrill..... age 43
 David Holt..... " 59 Prentiss Buck..... " 59

Everything has run smoothly at the farm the past year. Have had no sickness of any account and things about the farm and house have a neat and tidy appearance, and the inmates have been well cared for.

We have shingled one side of the house, put in a new water tank, had the sink rebuilt, and made other repairs about the house. Next summer the barn will have to be shingled and quite a number of other repairs made. We have had lumber sawed and got shingle stock to the mill which will make part enough for this purpose, and would recommend that the town raise \$300.00 for the needed repairs.

POOR OFF THE FARM.

Expense of Sarah N. King (Soldier's widow):

Paid Town of Dexter.....	\$97 00

Lewiston notified us the first of July that they had furnished C. W. Fogg supplies to the amount of \$24.27. We went at once to Lewiston and found Mr. Fogg was in jail for sixty days. His wife promised to get along without any more help from the town if we would not take them to the farm. Under the circumstances we thought it best to try them once more, and as yet have had no more calls from them.

In October we received word from Dr. Sanborn of the Insane Hospital at Augusta that he thought it advisable to have Christine Bradbury placed in a private family for a while. Arrangements were made with Mrs. Geo. H. Hill of Falmouth to board and care for her for \$2 00 per week. So far from report we think the change has been beneficial to her, and hope in time she will be self supporting.

Shortly after entering upon the discharge of our official duties, our attention was called to the case of Flossie Miller, now about fifteen years old, daughter of August C. Miller and Lula Miller, who fell in distress in the town of Albany and is being supported by that

town. On looking up the facts we could not find the father had any settlement in this State, and that the mother had been granted a divorce and then married a resident of the town of Norway, from whom she also obtained a divorce and later married a resident of Albany. The unfortunate child had accompanied her mother from place to place and was living with her in Albany at the time that the town was called upon for assistance. Under the circumstances and facts in the case and after consulting counsel, we did not feel that Norway was legally chargeable for the support of the pauper and so notified the overseers of the poor of Albany; whereupon after more or less correspondence and several interviews the town of Albany brought suit against this town for the amount expended up to September last, being the sum of \$112.98. The case is now pending in court, where we hope for a speedy and favorable decision.

In the case of Mary Collins we had no doubt of the town's liability, so we furnished her a few supplies and bought her a ticket to New Hampshire, and have not heard from her since.

Report of Selectmen

Town orders have been drawn for the year from Feb. 1, 1909 to Feb. 1, 1910, No. 12,185 to 12,366 and new series No. 1 to 662 inclusive,

We wish to call your attention to the matter of the collection of taxes. For through the persistent effort of H. J. Bangs, the collector, of all amount of money assessed \$24,886.96 all has been turned into the treasury except \$286.96. Probably never in the history of the town has there been so little money due from the collectors.

Soon after coming into office we were called on by a number of the voters to appoint a sealer of weights and measures. After looking into the matter we found we were obliged by law to do so, and accordingly appointed C. S. Libby to that office and procured an outfit to enable him to discharge his duties, and we think from his report that by so doing every citizen of the town has been benefited.

Last year there was no money raised for road commissioner's salary, and as the appropriation for the officers' salaries was cut down two hundred dollars, we have run short a small amount, and would recommend that the road commissioner's salary be included the coming year, with the other officers' salaries and the amount raised be sufficient to cover all.

We think the contingent fund ample for the coming year providing the town will bear in mind as each appropriation comes up and raise money enough as near as possible to care for each account. With the above suggestions we respectfully submit this report for your consideration.

Norway, Me., Jan. 31, 1910.

Report of Superintendent of Schools

TO THE SUPERINTENDING SCHOOL COMMITTEE AND CITIZENS OF
NORWAY:

The annual report of the condition of the schools of the town of Norway is hereby respectfully submitted:

Number of persons in town between the ages of 5 and 21 years, April 1, 1909.....	761
Number of tuition pupils.....	16
Number of pupils enrolled in schools during the year.....	603
Registration in largest term, fall 1909.....	579
Average attendance, winter term 1908-1909.....	469.32
Average attendance, spring term 1909.....	520.14
Average attendance, fall term 1909.....	521.5

Number of public schools and teachers employed for the year 1909:	
High.....	1
Village common schools for the year.....	10
Rural common schools, winter and fall.....	9
Rural common schools, spring.....	10
Number of teachers employed, spring.....	24
Number of teachers employed, winter and fall.....	23
Special teacher of Drawing and Music.....	1
Number of different teachers employed.....	41
Number of teachers continued in same school for the year.....	12
Number of teachers employed who have attended Normal school or College.....	21
Number of teachers employed who hold State certificates.....	12
Average number weeks in common schools for year reported..	32.765

My official work in connection with your schools began August first. Only one of the terms reported has been under my supervision. That I found your schools in excellent condition I do not need to inform you; and that your former superintendent gave you the efficient and untiring effort of a splendidly equipped mind is the judgment of all intelligent and honest citizens.

The work of your High school is excellent, and it is my opinion that no town in the State can boast of such efficient work, at so small a cost. I cannot too highly commend the work of Principal Hathaway and his cultured and able assistants. Your High School is favorably known and ranks among the very best in the State.

The new State law came into effect this year requiring us to maintain the High School for 36 weeks, and to provide an adequate laboratory and apparatus for Physics and Chemistry. If we keep our school in class A, and receive the \$500 from the State we must comply with these requirements. Such apparatus as was needed for the work in Physics and Chemistry in the fall term has been purchased. The fall term was for 12 weeks and the two succeeding terms will be for 12 weeks each. Some additional apparatus must be purchased for the last part of the school year.

The following is the part of the laws for the improvement of free high schools, approved April 1, 1909. Chap. 71, Sec. 1, "No school shall be regarded as a high school within the meaning of any of the provisions of chapter fifteen of the revised statutes unless such school shall be included in the following classes. Class A. This class shall include such schools as maintain at least one approved course of study through four years of thirty-six weeks each and of standard grade, together with approved laboratory equipment."

Sec. 2. "A town, precinct or union maintaining a high school as defined in section one of this act, shall be reimbursed by the State for two-thirds of the amount paid for instruction in such school; but in no case shall more than five hundred dollars be paid by the State to a town, precinct or union in any one year."

Many towns in the State are recognizing the fact that high school work is planned on the assumption that many, if not most, of the pupils will go to college; and the complaint is often heard that the high school work is not practical. Many pupils leave school before completing the work in the grammar grades. If a course could be provided in the high school, which would appeal to these pupils, and their parents as really practical, more of them would complete the course in the grades and enter the high school.

Most people recognize the responsibility of the State and of the town to provide these pupils, who cannot hope to go to college, with an education that shall aid them to enter into the business world able to do work that is in demand, and to take positions in which they will receive compensation for the preparation they have made in school.

A commercial course would help to hold the interest of many who revolt against taking up Latin and Geometry. Such a course could be added to our high school, with a well equipped commercial teacher in charge, at a cost of not more than \$600 per year.

This course should require four years of English, Business Arithmetic, Bookkeeping, Shorthand, Type-writing; with some work in History and Science. The reasonable request for more practical work would be met, and many of our bright boys and girls be better equipped for the battle of life.

The chief objection to adding this course at once is the lack of room. The high school is already crowded into too narrow quarters.

The roof of the middle primary house could be raised, and the third grade could be established in that building. This could be done at a cost of about \$1000. I recommend this plan to your thoughtful consideration.

The following pupils were graduated from the high school June 11, 1909.

Genevieve Barker,
Rosamond Dunham,
Elsie M. Buck,
Benjamin S. Cobb,
Mildred L. Frost,
Hazel Foster,
Arthur W. Gary,
Elden D. Hall,

Frances Haskell,
Mildred J. Holmes,
Helen Howe,
H. Elmer Hussey,
Mildred H. McLean,
Grace M. Thibodeau,
Susie M. Walker.

The Don C. Seitz prize for excellence in course was awarded to H. Elmer Hussey.

The pupils in the common schools show commendable ambition and effort. Upon inquiry, I find most of the pupils, even in the district schools, hope to take the high school course. This should be encouraged, as the man or woman of to-day needs a broad equipment of learning in order to be properly prepared for the fierce struggle that awaits him.

The schoolhouses have been repaired to quite an extent during the past year, and a smaller sum will be needed this year to keep them in proper condition. The floors of the high school building are soft wood, and in some places are worn through. It will be necessary to replace the hall floors this year, and I recommend that hard wood be used both for economy and for sanitary reasons. It is never economy to allow any building to get badly out of repair.

I wish to compliment you upon the course of study you so wisely adopted in 1903. It proves a most valuable aid to the new teacher taking up the work in any school.

The salary of teachers is the one thing I would criticise. The constant advance in the price of most things a teacher must buy, together with the necessary advance in the price of board, makes it necessary to advance the salary of teachers, if we are to secure and keep the kind we want. The teachers in the village schools have been paid the uniform price of \$9 00 per week. Rooms now cost \$1.50 per week, and table board \$2 75. The teacher must hire her washing done, and when the necessary living expenses are paid she has less than \$1.50 per week, as her wage. If she is well and teaches 33 weeks, she has \$148½ with which to purchase clothes, pay traveling expenses, pay debts incurred in fitting herself for teaching, support others dependent upon her, purchase helps for her own improvement in teaching, and provide for a contented and happy old age.

While the living expense in the country districts is less than in the village, the salary, too, is much less. I believe that as good teachers should be provided in the country as in the town. I believe also that wages should not be uniform, but that preparation, efficiency, and length of service should be recognized in fixing the salary to be paid. But no teacher should be employed for the village schools who is not worth at least \$10 per week anywhere.

My work among you as Superintendent of Schools has been made pleasant by the kindly sympathy and help of the Superintending School Committee, and the citizens of Norway. I hope to become better acquainted with all, and to identify myself with the efforts for improving schools and town.

I thank you all for your kind assistance.

Respectfully submitted,

L. M. FELCH.

Norway, Me., Jan. 31, 1910.

Report of the Superintending School Committee

The Superintending School Committee of the town of Norway, composed of George E. Tubbs, member for one year, and Herman L. Horne, member for two years, met for organization, April 3, 1909, and elected Herman L. Horne as chairman and Charles P. Barnes as Superintendent of Schools and secretary, to serve until August 1, 1909. At a joint meeting of the Superintending School Committees of Norway and Waterford, Herman L. Horne was elected chairman, and Guy Dudley as secretary. Mr. L. M. Felch, of Houlton, was elected District Superintendent of the towns of Norway and Waterford, for two years.

At a meeting of the Superintending School Committee of the town of Norway, held August 2, 1909, Charles P. Barnes was elected by ballot, a member of the Superintending School Committee, of the town of Norway, to hold office until his successor is elected, and the duties usually delegated to the Superintendent of Schools, were delegated to Superintendent L. M. Felch.

It is with deep regret that we record the death of one who has so long taken an active interest in the school affairs of the town. On September 22, of this year, Mr. George E. Tubbs, a member of the Superintending School Committee, departed this life, leaving a vacancy in our membership which we have never attempted to fill. Mr. Tubbs was elected to this Committee in 1899 and continuously until his death. He was chairman of the Committee for the years 1901, 1904, and 1907.

He was deeply interested in the welfare of the children of Norway, always faithful here, as elsewhere, in the duties intrusted to him, a wise, prudent, and farseeing man, and at the end of his long term of service, we, the surviving members of the School Committee, whose

work for more than ten years he had made one of his chiefest cares, deem it his due, that in this public manner, and on the permanent records of the town, we inscribe this recital that he was a wise counselor, an active friend of practical education, and that in our judgement he assumed and discharged his civic duties with unflagging devotion, without fear, without favor and with absolute loyalty to what he believed to be the best interests of his townspeople, present and to come.

The doings of the Committee are shown in the report of their expenditure of the funds placed at their disposal as follows:

 \$757 21

One year ago we recommended that the sum of \$181.57 be returned to the town from the surplus of the Common School fund, to balance the overdraft on the repairs account. This was found to be contrary to law, and that amount still stands as a balance against the repairs account. There is a balance against the same account this year of \$16.78, making a total of \$148.35, which we have no funds to pay. We recommend that the town raise and appropriate the sum of \$148.35 to wipe out this deficit.

The Crockett, Millettville and Pierce schools have neither of them maintained an average attendance of eight pupils, as required by law, but we recommend that schools be continued in the Crockett Ridge, and Millettville neighborhoods.

The outhouses connected with the school houses at the Lake, and in Millettville are entirely unsuitable and insufficient, the privies being used by pupils of both sexes. This has already continued too long and we recommend that fit buildings for woodsheds and privies be erected in the two districts named.

But at Millettville, where the present school building stands on a side hill, with its northwest corner high above the ground, an exposed and fiercely cold situation in winter, and where no shed, except a little leanto was ever built. We recommend that a lot be purchased of Mr. A. G. Lovejoy, on the east side of the road, the present building be moved across the road, and an outbuilding be erected on the new lot.

At the High School building we hope to place a steel ceiling in the High School room where the plastering is patched or threatening to fall, clean and tint the walls and hang new curtains.

The Chapel and Holt houses should be painted and small repairs made in other districts.

It is necessary that our Superintendent have an office in which to meet pupils, parents and teachers, and where he can do the clerical work of the department and keep certain supplies that are always in demand. For the past six months the Selectmen have paid the rental at \$1.50 a month of a room in the Ryerson building for Mr. Felch, he paying for heating, furnishings, etc.

Nearly all towns have a building in which they can house their town officers, and it is right that Norway should furnish an office for her Superintendent of Schools.

We recommend that in addition to the \$300 which we are bound to pay for superintending, an additional sum of \$50 be appropriated for rent, heat, light, etc., of the office of the Superintendent of Schools.

Chapter 177 of the Public Laws of 1909 provides from State funds additional revenue for the support of common schools.

It is our plan to use a part of this by paying more for the services of our best teachers, and by increasing the length of the school year. But we shall not be obliged to raise by taxation so much money as last year.

We recommend the raising of the following amounts:

For Common schools.....	\$2,000 00
Free text books.....	700 00
Repairs on school buildings.....	750 00
Deficit in repairs account.....	148 35
Insurance, apparatus, appliances, etc.....	600 00
Free High school.....	2,450 00
Drawing and music.....	500 00

Respectfully submitted,

H. L. HORNE, }
CHARLES P. BARNES, } *Supt. School Com.*

Norway, Jan. 31, 1910.

GEO. W. HOLMES,	{	Selectmen of Norway.
A. J. MILLETT,		

Report of Board of Health

TO THE SELECTMEN OF NORWAY:

Gentlemen:—The local Board of Health have the honor of submitting its annual report for the year ending January 1, 1910. The Board organized early in the year by electing Frank E. DeCoster chairman and H. L. Bartlett secretary.

We are pleased to report no serious epidemic of any contagious disease. The number of minor diseases reported have been about as usual, consisting of a few cases of whooping cough, measles and scarlet fever. There has been reported to us only two cases of tuberculosis, both proving fatal. After the death of these unfortunates the houses in which they were contained were carefully disinfected by the method recommended by the State Board of Health. Two cases of diphtheria have been reported and both recovered. We have had a total of eight cases of typhoid fever. By one patient the disease was undoubtedly contracted before coming to town. We have tried to find the source of infection in the other cases but have not done so to our complete satisfaction. We have had a careful examination made of the drinking water from which the families in which typhoid occurred took their supply, and the report from the State Laboratory of Hygiene was that none of them contained any disease germ. The infection probably came from filthy closets, sink spouts or stables. We would urge our people to be extremely careful about these things and especially to guard against the filthy house fly who brings into the house on his feet millions of bacteria and germs and proceeds to deposit them on the food on the dining room table.

Respectfully,

H. L. BARTLETT, M. D., Sec. Local Board of Health.

Vital Statistics

TOWN CLERK'S OFFICE.

TO THE SELECTMEN OF THE TOWN OF NORWAY:

Gentlemen:—The following returns of births, marriages and deaths have been made to this office for the year 1909.

STUART W. GOODWIN, Town Clerk.

	Balance against farm.....		\$489 96

We have used over \$110.00 worth of lumber and shingles from the farm for the repairs for which we have given the farm no credit, which would if credited to the farm and charged to the repair account make the balance against the farm for the year about \$380.00.

In regard to the repairs on the buildings would say that we found the buildings in worse shape than we expected. There has been a shed built over the water tub, the barn shingled and one side of the stable, new sills where needed, tie-up floor repaired, a piazza built so the inmates can go from their part of the house to the shed and barn without going out into the snow and rain or through the Superintendent's part of the house, all the windows have been puttied, new glass where needed, sash drawn and many other small repairs to house and barn.

The Superintendent said he thought it advisable to change some of the cows for better ones. So we did, but the way they were managed it did not bring any better results, and as we summered over quite a large amount of hay and cut a good crop that filled the barn to its full capacity it was necessary to purchase some stock to use this hay on the farm in order to keep up its fertility, and having more cows than was profitable under the present management we thought best to buy some young stock, so we purchased 10 steers at a cost of (\$381.00) and at our last visit to the farm they were growing well and if they have a good run next summer they will return a good profit.

INMATES AT TOWN FARM, JAN. 31, 1911.

We have been unfortunate the past year in having two law suits to fight. The Albany case spoken about in last year's report was carried to the law court and decided in Norway's favor. We were much gratified with the result as we saved paying between two and three hundred dollars for her support up to that time and having the unfortunate child on our hands as she must be a large expense to some one as long as she lives.

The other case was with Minot. We had to bring suit against that town to recover for supplies furnished W. H. Works. As they refused to pay the bill, no other course was open to us. This case was also decided in our favor and Minot now has Mr. Works on their hands.

We have had an unusual amount of sickness and hospital cases the past year which has made a number call on the town that would not otherwise have done so.

Mrs. Collins and children returned here from New Hampshire soon after her husband was killed. She had to have some help from the town during her sickness and death of infant child but has had no help since.

Report of Selectmen

Town orders have been drawn from Feb. 1, 1910 to Feb. 1, 1911, No.

The only over draft was in the highway account. This was due to the heavy rain in the month of August that caused so many wash-outs. We thought better to draw from the contingent fund than call an extra town meeting.

In submitting our annual report we have endeavored to place before the citizens of the town a careful statement of all accounts which have passed through our hands during the year, and to make a brief explanation of such matters as would be of the most interest to the citizens of the town.

Norway, Me., Jan. 31, 1911.

GEO. W. HOLMES,	}	<i>Selectmen of Norway.</i>
GEO. H. DUNN,		
A. J. MILLETT,		

Treasurer's Report

August 26, I was elected Superintendent of the Schools of Norway to commence my official duties September 1.

Evidences of your interest in providing good schools were apparent when I entered the High School building. Good schools result from combined efforts of interested parents, efficient teachers and loyal scholars.

The village school buildings, as well as those of the outlying districts are all in good condition, yet by no means perfect. The interior of some schoolrooms is not as good as I would like to see. Better blackboards ought to be installed in several of the district schools. Tinting the walls and painting the woodwork would make the schoolrooms more attractive.

Some of the outbuildings have been improved during the past year. There are still some to be cared for this season.

The High School building should be painted this season and both front and back piazzas repaired. I recommend that electric lights be installed in the basement at least. In the short winter days the light is much needed by the janitor. I think it money well invested for the sake of safety.

More radiator-space in grades VII and IX would make the heat more even throughout the building during the cold winter days.

It will not be long before our grades will be overcrowded. Grade III already has 47 pupils. This is too large a number for a teacher to do efficient work. I believe it wise to separate the High School from the grades. Much better results could be obtained in the way of social life in school.

I was much pleased to find that music and drawing are being taught in your schools. These branches of study may not to many people seem beneficial, but I believe them essential.

Music helps to cultivate better and cheerful dispositions and is a help to civilization. Children begin their work with better cheer when school opens with a song.

Drawing teaches refinements and cultivates a taste for beauty and order.

Better results in Arithmetic have been noticed since the change in text books.

The new State law that came into effect a year ago requires us to maintain the High school for 36 weeks and to provide an adequate laboratory and apparatus for physics and chemistry. If we keep our school in class A and receive State aid we must meet these requirements.

For chemistry we are fairly well equipped but for physics only what was needed during the fall term has been provided. Some additional apparatus must be purchased soon.

The following pupils graduated from the High School, June 17, 1910:

Lucie Barrows,	Amy Hayden,
Ruth Beane,	Mildred Kelley,
Ronell Bicknell,	Roland Kimball,
Raymond Brooks,	Marion Lafrance,
Ethel Brown,	Olivia Libby,
Grace Brown,	Ursula McAllister,
Gladys Buck,	Donald Partridge,
Lena Buck,	Alta Pottle,
Daisy Chase,	Mildred Pottle,
Ella Clark,	Guy Stevens,
Pearl Cook,	Geneva Sturtevant,
Florence Cummings,	Eva Smith,
George Felch,	Seymour Smith,
Percy Fogg,	Dorothy Tubbs,
Alton Frost,	Minnie Upton,
Annie Frost,	Velma Wentzel,
Hartley Greenleaf,	Don Whitney,
Clara Hathaway,	Merton Wyman.

The Don C. Seitz prize for excellence in course was awarded to Miss Ethel Brown.

A Business or Manual training course in connection with the High School would induce many that leave school so young in life to continue their course of study.

Many parents wish their children to take branches of study that will aid them more directly for the practical work of life.

Such a course could not add more than \$600 to our present expenses.

Efforts should be made to hire Normal trained teachers for the district schools.

Country pupils are as deserving of the best teaching force as those living in villages. All efforts to obtain such teachers would be wasted unless some provisions are made to pay higher wages.

Since the commencement of my labors in your midst, I have been kindly assisted by all concerned with the schools.

I trust, as I become more acquainted that I may identify myself in all efforts for the improvements of both school and town.

I thank you for all courtesies shown me.

Respectfully submitted,

EMIL O. HERMS, Supt.

Report of

Superintending School Committee

Norway, Me., Jan. 31, 1911.

The Superintending School Committee of the town of Norway composed of H. L. Horne, member for one year, Wm. F. Jones, member for two years, and L. Hall Trufant, M. D., member for three years, met for organization March 7, 1910, and elected Wm. F. Jones, chairman.

At a joint meeting of the Superintending School Committees of Norway and Waterford, H. L. Horne was elected chairman, and Guy Dudley, secretary.

In the month of August, 1910, Mr. L. M. Felch, tendered his resignation to take effect September 1, 1910. What was our loss was his gain as he resigned to accept the principalship of the Caribou High School, a better position.

At a meeting of the joint committees held August 26th, Emil O. Herms, A. B., a graduate of Bowdoin College, was chosen as Superintendent of Schools for the two towns. He has been very diligent and painstaking in the performance of his duties.

The following accounts show the expenditures of money appropriated for schools.

The bulk of the repair money was expended on the High School building. A new ceiling in the High School room of steel, tinted, and walls painted makes a lighter and more pleasant room. A hard-wood floor on the lower hall is a great improvement.

The outhouses at the Lake and Millettville have been changed and suitable houses have been erected.

We recommend the raising of the following amounts for 1911-1912:

For Common schools.....	\$2,000 00
Free text books.....	700 00
Repairs on school buildings.....	850 00
Insurance, apparatus, appliances, etc.....	600 00
Free High school.....	2,450 00
Drawing and music.....	500 00
Office for superintendent.....	50 00

Respectfully submitted,

Report of Board of Health

Norway, Me., January 28, 1911.

TO THE SELECTMEN OF NORWAY:

Gentlemen:—Herewith is submitted the annual report of the local Board of Health for the year ending January 1, 1911. There has been no serious epidemic of any contagious disease.

During the year, 13 cases of scarlet fever have been reported to the board, and we have no doubt but that there has been quite a few more cases, but, owing to the mildness of the attack, many parents have not reported the illness to the health authorities. Some have done this through ignorance of the law, and others, we fear, because they felt that on account of the mild character of the disease a quarantine would be troublesome and unnecessary. Parents should remember that a mild attack is contagious the same as a severe one, and while one's own child may not be very sick with this disease, his neighbor's child may take the malady and lose its life.

We urge upon parents the necessity of calling the family physician where any suspicion of scarlet fever or any contagious disease is present. As to duties of Householders, the law is very plain about this matter. It is as follows. Section 33 reads:—

“Whenever any householder knows or has reason to believe that any person within his family or household has smallpox, diphtheria, scarlet fever, cholera, typhus or typhoid fever, cerebro-spinal meningitis, measles, membranous croup, so called, or whooping-cough, he shall within twenty-four hours, give notice thereof to the health officer of the town in which he resides, and such notice shall be given either at the office of the health officer, or by a communication addressed to him and duly mailed within the time above specified, and in case there is no health officer, to the secretary of the local board of health, either at his office or by communication as aforesaid.”

All cases of scarlet fever that have been reported to us have been quarantined, until in our opinion, all danger of contagion had passed. We have had six cases of typhoid fever, a few cases of measles and some whooping-cough, very few of which have been reported.

These diseases come within such reportable ones as is defined by statute above quoted. A few nuisances have been reported and removed.

Throughout the State in about every community there have been cases of that frightful malady, poliomyelitis (Infantile Spinal Paralysis). In our town we have been very fortunate, for only one case appeared. So far, the medical profession are unable to determine the cause of this disease or its method of contagion. It seems to be a disease primarily of hot weather, practically all of the cases occurring in July, August and September.

At the present time the State Board of Health is making an exhaustive study of all the cases that occurred in Maine during the past year, and it is earnestly hoped that some light may be shed on this disease that will give us a better opportunity to combat it in the future. It is a disease with a heavy mortality and of the survivors 90 per cent. are crippled for life. It will, undoubtedly, soon be added to the list of diseases subject to quarantine. As it is practically a disease of childhood, it is hoped that during the coming summer parents will report to the family physician all sudden and acute attacks of sickness. By so doing, lives may be saved and many crippled cases may be averted by isolation of all suffering from this disease.

H. L. BARTLETT, M. D., Sec. Board of Health.

Report of Committee on Stone Crusher and Steam Roller

Better roads we must have. How shall we get them?

THEY COST MONEY.

We give sum estimates made by a Civil Engineer on building Macadam roads.

Cost of a suitable portable stone crusher, \$2000. To Macadamize Main street from Pleasant street to Paris street, a distance of 3000 feet or about 3.5 of a mile, \$13,000. To build Macadam road 16½ feet wide over that section known as the lake road where State road has not been built, from \$6000 to \$7000 per mile.

Considering we are not a rich community, our source for revenue not large, to incur this expense would be a burden to the taxpayers. We therefore would not recommend the town to purchase a stone crusher.

On the other hand it is necessary that we improve our streets and highways.

From information gathered we are of the opinion that better earth and gravel roads can be built by the use of a steam roller at an expense within our means that will give general satisfaction and much improve our present system. Cost of a 10 ton reliable steam roller delivered at Norway, \$3,000 cash. Steam rollers are durable, easy to operate, repairs light and with proper care will last a long time.

To build and maintain good roads it is necessary first to establish grades and drainage. After building a good road it must have proper and constant care to preserve it.

Places visited:—Rumford, Topsham, Brunswick, Saco, Biddeford.

Report of Sealer of Weights and Measures

The Selectmen of the Town of Norway:

Gentlemen.—I submit herewith my report as sealer of weights and measures for the town of Norway from Jan. 31, 1910 to Jan. 31, 1911:

Number of scales tested and sealed.....	109
“ “ condemned.....	2
“ weights tested.....	353
“ “ adjusted.....	24
“ milk bottles tested and sealed.....	707
“ “ “ condemned.....	42
“ liquid and dry measures tested.....	104
“ “ “ “ condemned.....	1
“ yard measures tested and sealed.....	37
“ “ “ condemned.....	6

Respectfully submitted,

C. S. LIBBY, Sealer of Weights and Measures.

Norway, Me., Jan. 31, 1910.

ERRATA.—The following marriages were, on account of errors, returned for record too late to be included in my regular report.

—Stuart W. Goodwin, Town Clerk.

In Norway, May 2, 1910, by Rev. B. C. Wentworth, Will Henry Garey, age 54, and Mary Berryment, age 41, both of Greenwood.

November 20, in Lewiston, Clara E. Daggett, age 57 years, 5 months, 6 days. Birthplace, Parkman. Cause of death, Bloughin's fibroid of uterus and operation hysterectomy.

A WORD TO PARENTS:—

In presenting for your consideration the foregoing report of births, deaths and marriages for the past year I wish to urge all parents to assist me in making the Records of Births complete.

As you will see by the list of Births in my report, the names of a great many of the children are not given, so that the record loses much of its value on this account. It costs the town quite a sum each year to have these records made, and neglect on the part of parents to do what they can to assist, tends to defeat, in a measure, the purposes for which the record was intended. It should, therefore, be the duty of all parents to see that the clerk has the names of their children, and if possible they should be handed in by the 10th of the month following the date of birth, which will enable me to have a complete index of the Records of Births and also to see that the name goes on the report which is made to the State Registrar. It may be that this record in years to come will be of untold value to your boy or your girl in establishing beyond any question the place and date of birth and this cannot be done in its fullest extent unless the name of the child be given.

Thanking you in advance for your kind co-operation with me in this matter, I am,

Respectfully,

STUART W. GOODWIN, Town Clerk.

Norway Public Library

Treasurer's Report

TOWN PROPERTY.

2 Buckeye road machines,	1 Little Winner road machine,
1 Oxford Winter road machine,	2 Winter road machines,
3 Sidewalk machines,	1 Plank sidewalk scraper,
1 Iron King drag,	13 Log King drags,
2 Wheelbarrows,	1 Plow,
2 Gravel sieves,	1 Snow roller,
1 Nail hammer,	1 Axe,
3 Lanterns,	2 Monkey wrenches,
3 Iron rakes,	1 Bush scythe and snath,
1 Iron bar,	2 Shovels,
8 Spades,	6 Picks,
1000 Feet Plank.	

The Commissioner has placed on file in the Selectmen's office a daily itemized statement of time and expenses.

RECOMMENDATIONS.

1. Special appropriation of \$400 for cutting, cleaning up and burning bushes.
2. Special appropriation of \$400 to replace small plank bridges with stone.
3. The purchase of two snow rollers.
4. An appropriation to aid in building and repairing sidewalks.
5. A system of surface drainage for upper section of the village.
6. An emergency fund, outside of appropriation, for use in case of extensive washouts or other unusual demands for money.

Respectfully submitted,

J. A. ROBERTS, Road Commissioner.

Report of

Sealer of Weights and Measures

The Citizens of the Town of Norway:

Gentlemen:—I submit herewith my report as sealer of weights and measures for the town of Norway from Jan. 31, 1911 to Jan. 22, 1912:

Number of scales tested and sealed.....	93
“ “ condemned.....	2
“ weights tested.....	340
“ “ adjusted	9
“ milk bottles tested and sealed.....	744
“ “ “ condemned.....	34
“ liquid and dry measures tested.....	93
“ “ “ condemned.....	5

Respectfully submitted,

C. S. LIBBY, Sealer of Weights and Measures.

Norway, Me., Jan. 31, 1912.

Report of Superintending School Committee

Norway, Me., Jan. 31, 1912.

The Superintending School Committee of the town of Norway composed of W. F. Jones, member for one year, L. Hall Trufant, M. D., member for two years, and H. L. Horne, member for three years, met for organization March 15, 1911, and elected Wm. F. Jones, chairman.

In the month of December, 1911, there was a joint meeting of the Superintending Committees of Norway and Waterford, H. L. Horne in the chair. Dr. L. H. Trufant was chosen secretary. The resignation of Supt. E. O. Herms to take effect January 1, 1912, was accepted.

Mr. True C. Morrill of Gardiner, Maine, was elected Superintendent of Schools for the district. Your committee feel that in securing Mr. Morrill they have made a good choice and bespeak for him the support and backing of all good citizens.

The following accounts show the expenditures of money appropriated for school purposes:

Report of the Superintendent of Schools

TO THE BOARD OF EDUCATION:

GENTLEMEN:—I have the honor to present my first report as Superintendent of Schools, it being the annual report to you. I will not dwell upon details of school statistics in this part of my report as they are given elsewhere in tabular form for your convenience.

During my brief survey of your schools only slight changes for betterment have occurred to me. The larger problems of radical changes must gradually take place in the evolution of all Educational systems, must be approached with a great amount of caution and mature consideration. Yet the progress of all systems of education is inevitable and I feel that time will not find us lagging in our duty or non-progressive. The growth of our schools must continue to be progressive and efficient, every school of the District working as an inseparable unit, so as to eliminate varying degrees of efficiency that might exist. I find our schools not lacking in fundamentals but any system may have more essentials.

In the most of our schools we have teachers who are zealous workers, ever eager in their work for the betterment of their methods and ever willing to apply a precept. After getting a complete uniformity in the course of instruction in all the schools, which can best be brought about at the beginning by a uniformity in all texts used, then the steady onward growth of the system will be better assured of infinite development and increasing efficiency.

I have found our rural school buildings in good condition with the exception of some small defects as with the blackboards, and desks. The equipment should be somewhat more complete in some cases for more consistent work. I refer more especially to Globes, Maps and Charts, the mention of which, is required in our school census report to the State. Some of the students' desks should be repaired and some replaced. Reliable clocks should be in every school as they lead to punctuality and somehow aid in the discipline.

TRUANCY.

I ask for the cooperation of parents to aid in the punctuality and attendance which a graded school must demand for the best results.

The only legitimate excuse for absence or tardiness shall be (1) illness of pupil, (2) sickness or death in the family, (3) inclement weather, rendering exposure dangerous to the health, (4) or such unusual circumstances as the teacher may deem worthy.

A truant officer will be appointed in each district and promptly notified of any truancy or misconduct of students that would ordinarily come under his jurisdiction. The following laws are to be strictly conformed to:—

EXTRACTS FROM SCHOOL LAW OF MAINE.

SEC. 49. Every child between the seventh and fifteenth anniversaries of his birth shall attend some public day school during the time such school is in session, and an absence therefrom of one-half day or more shall be deemed a violation of this requirement; provided that necessary absence may be excused by the superintending school committee or superintendent of schools or teachers acting by direction of either; provided also, that such attendance shall not be required if the child obtained equivalent instruction, for a like period of time, in an approved private school or in any other manner approved by the superintending school committee; provided, further, that children shall not be credited with attendance at a private school until a certificate showing their names, residences and attendance at such school signed by the person or persons having such school in charge, shall be filed with the school officials of the town in which said children reside; and provided, further, that the superintending school committee may exclude from the public schools any child whose physical or mental condition makes it inexpedient for him to attend. All persons having children under their control shall cause them to attend school as provided in this section, and for every neglect of such duty shall be punished by a fine not exceeding twenty-five dollars or shall be imprisoned not exceeding thirty days.

SEC. 52. If a child without sufficient excuse, shall be absent from school at six or more consecutive sessions during any term, he shall be deemed an habitual truant, and the superintending school committee shall notify him and any person under whose control he may be that unless he conforms to section forty-nine, the provisions of the two following sections will be enforced against them; and if thereafter such child continues irregular in attendance, the truant officers or any of them shall, when so directed by the school committee or superintendent in writing, enforce said provisions by complaint.

SEC 53. Any person having control of a child, who is an habitual truant, as defined in the foregoing section, and being in any way responsible for such truancy, and any person who induces a child to absent himself from school, or harbors or conceals such child when he is absent, shall be punished by a fine not exceeding twenty dollars or shall be imprisoned not exceeding thirty days.

SEC 54. On complaint of the truant officer, an habitual truant, if a boy, may be committed to the State School for Boys, or if a girl, to the State Industrial School for Girls, or to any truant school that may hereafter be established. Police or municipal courts and trial justices shall have jurisdiction of such complaint and of the offenses described in sections forty-nine, fifty-one and fifty-three. All warrants issued by said courts or trial justices upon such complaint, or for an offense committed under said sections, and all legal processes issued by said courts or trial justices for the purpose of carrying into effect the provisions of this section and of said sections numbered forty nine, fifty-one and fifty-three, may be directed to and executed by the truant officer, or either of the truant officers, of the town where the offense is committed. All fines, collected under said two last named sections, shall be paid to the treasurer of the city or town in which the offense is committed, for the support of the public schools therein.—[Revised Statutes of the State of Maine, Chapter 15, Sections 49, 52, 53 and 54.

COURSE OF STUDY.

The course of study as outlined in 1903 must be revised for present needs and demands. This I am planning to do and have for submittal to you before the close of this school year, in order that it can be put in force for the next year. It will be arranged so as to closely correlate the work of the grades with the work in the High School. The revision of the High School curriculum will be undertaken with the assistance of its Principal. The unifying of the two systems will require a great amount of careful work.

HIGH SCHOOL.

Any desirable changes for the High School, which it may seem advisable to undertake, will be easily brought about because of its efficient corps of teachers. Consequently the adjustment of the curriculum becomes merely a matter of cooperation. I find the quarters allotted to your High School very much overcrowded for consistent individual or recitation or laboratory work. At present the teachers are greatly hampered by inadequate board room, which is a very

necessary factor in language, mathematical, and scientific work. The Laboratory should be used exclusively for the sciences, not only for recitation and lecture work but also for the working of experiments. It is always necessary, for science students to work during extra periods in order to cover the necessary requirements during the year. Consequently they should have opportunity to do so without being hindered or hindering other classes. At present any of the different subjects must be assigned to the Laboratory for recitations. It will soon be necessary to give over the room now occupied by the eighth grade, for a High School recitation room. This will make it possible to develop our College, Business, Scientific and Agricultural courses. The latter two should be developed in unison, each fortifying the other. If we can organize the right kind of an Agricultural course in connection with our Sciences, State aid will be available for us. In such an event the State pays two-thirds of the cost of instruction, not exceeding \$500. This would supply us an extra teacher for the Business Department with a slight increase over present expenses. This course would embrace Bookkeeping, Typewriting and Shorthand. Before any of these changes can be undertaken, however, it will be necessary to have the extra room at our disposal.

This is merely a survey of what is taking place elsewhere, with the exception of the Agricultural course, which, strange as it may seem, has been, to date, most highly developed in the city schools. Whereas, we, with larger and more practical plots, with inspirations unbounded, could make such a course of infinitely greater value. It would give added respect for the business of farming, which it has long deserved, and coupled with our science course would, also make a practical working basis for our courses in Botany, Zoology, Physiography, Chemistry and Physics. Each year there is an increasing demand not only for teachers of Agriculture but also from Government Stations of Agriculture. The presence of this course in our High School could but increase its value to us many times. Will it not be practical to formulate a well laid plan, gradually perfecting it in order to bring about its accomplishment in the near future?

I esteem it a great privilege to work in a community where the citizens take such a deep interest in their schools. Their pride in the system is well warranted. With a sincere and sympathetic attitude for cooperation I submit this annual report.

Respectfully submitted,

TRUE C. MORRILL, Superintendent.

DEPARTMENT OF MUSIC AND DRAWING.

Report of the Supervisor, Florence W. Fogg:

At the opening of the Fall term, 1910, all grades except the eighth and ninth were singing one-part music. The eight grade were singing in two parts and the ninth in three. Two-part work should begin the latter part of the third year in school or the first part of the fourth, and three-part work in the sixth. We have not been able yet to do quite the work required of each grade, but at the close of the year the fifth and sixth grades were singing in two parts and seventh, eighth and ninth in three.

In the fall of 1911, all grades from the seventh grade up were able to begin three-part work at once, and the sixth, two-part. The fifth grade has not been divided for two parts yet but probably will be at the opening of the Spring term, and also the fourth grade. In 1910, the third grade sang from the chart for the first two terms and began work from the books in the Spring term. This year, the third grade had taken chart work in the Primary schools and could commence work in the books at once. Work in the Primary schools has been very gratifying. Songs are taught by rote, but all drill work in intervals, time difficulties, and reading notes, is done by the children alone, with no singing by the teachers. Last year the chart was used in the Spring term, but this year it is already in use, in the Winter term. The children learn to sing in several keys before they leave the Primary school. In all grades difficulties in reading music, in intervals, and in time, are worked out by the children alone, with almost no singing by the teachers.

Work in Drawing in the lower grades has consisted of easy landscapes, use of colored crayons, illustrative drawing, and the making of simple objects. Brush work begins in the third grade, the children making little landscapes in brush and ink and using paints in color scales, borders, and the like. In the higher grades, design work, object drawing, pencil shading, landscapes in black and white and in color, the principles of perspective and of the fore-shortened circle, are a part of the work. In all grades nature drawing holds first place as long as specimens can be obtained. The children draw flower and leaf sprays, fruit, berries, etc., in pencil, colored crayon, brush and ink, or whatever medium is best suited to the grade and to the specimen chosen.

It has been necessary to divide the Norway Lake School into two classes for the work in Drawing, because of the varying ages of the pupils. The outline for the village schools has been followed as closely as possible and the results have been fully as good as in the

graded schools. In Music, the chief hope of the school lies in the younger pupils. They are learning, with the help of the older ones, to read music from the chart and from the books and it is hoped that as they grow older they will be able to do nearly the work laid out for the graded schools.

The value of Music and Drawing cannot be over-estimated. The children are not all artists, nor will they all be accomplished musicians, but neither are they all good mathematicians or fine readers. There are very few children who cannot be taught to sing at least a little, if they begin when they enter the primary school. In the third grade which numbers forty-two pupils this year, there are only three who cannot be depended upon to carry a tune correctly. Teachers of the piano say that children who have had musical training in school learn much more readily than those who have been without it, and its influence is noticeable too, in Sunday School and in other gatherings where singing is necessary.

The work in Drawing strives to teach neatness and accuracy as well as beauty of form and expression. Also, many discover talent, who never would in any other way and are encouraged to develop it.

The teachers have all given their hearty co-operation in the work of both subjects, and it is certainly due to their faithful drill that so much has been accomplished.

WINTER TERM.

High School Teachers.

Prin., P. E. Hathaway,	1st Asst., Florence L. Whittum,
Sub-Prin., Blynne Allen,	2d Asst., Ethel R. Baird.

EXTRACTS FROM THE SCHOOL LAW OF MAINE.

Legal Holidays:—New Year's Day, Jan. 1st; Washington's Birthday, Feb. 22d; Patriot's Day, April 19th; Memorial Day, May 30th; Labor Day, first Monday in September; Columbus Day, Oct. 12th; Christmas Day, Dec. 25th; Thanksgiving Day, appointed by the Governor and Council. Provided, however, that Arbor Day shall not be recognized as a school holiday, unless observed by teacher and pupils for the purpose for which it is designated by the Governor and Council.

All teachers of public schools in the state may close their schools on the days above mentioned and draw pay the same as if their schools had been in session upon those days. When any one of the above named holidays falls upon a Sunday, the Monday following shall be observed as a school holiday, with all the privileges applying to any of the days above mentioned. February 12th shall be observed by the teachers and pupils in all public schools of the state as Lincoln Day, some part of which day, as far as may be expedient, shall be devoted to the study of the life and character of Abraham Lincoln. When Lincoln Day falls on a Saturday or Sunday the observance of the same shall be as above stated, on the following Monday.—[Revised Statutes of the State of Maine, Chapter 102, Section 88.]

Report of the Board of Health

TO THE SELECTMEN OF THE TOWN OF NORWAY:

The Board of Health, herewith, submits its annual report for the year ending January 1, 1912. Our town, like the majority of towns and communities throughout New England, has been visited during the year by epidemics in mild form of scarlet fever, diphtheria and measles. These diseases have been very prevalent in all the New England States. All the manufacturing towns have shared our experience, and some of the rural neighborhoods.

In all, we have had reported to the Board: 22 cases of scarlet fever; 26 cases of diphtheria and 60 cases of measles.

We have no doubt but there have been as many more cases of scarlet fever and some cases of diphtheria that have not been reported.

These diseases, in the majority of cases, run so mild a course that they have not been recognized by the family, and no physician called; or through fear of quarantine, no physician would be called, thereby exposing other children to these maladies.

We can recall no incident where either of these diseases have been communicated by those under quarantine, but the continuous breaking out of cases here and there, prove conclusively that there were many cases never brought to the attention of the Board of Health.

If people were half as willing to submit to quarantine, as they are desirous that their neighbor should be "shut up", the troubles of the Board of Health would be less perplexing. One is very fearful that "the other fellow" is not kept close enough, but when he has a quarantinable disease in his own house, he can see no reason why he cannot go about his work. So the Board of Health make this appeal: CALL YOUR FAMILY PHYSICIAN TO EVERY SUSPECTED OR DOUBTFUL CASE. LET HIM DECIDE THE MATTER FOR YOU, thereby protecting your own family as well as your neighbors.

Besides the diseases already mentioned, we have had many cases of mumps and one case of small pox. We are pleased to say that this "much dreaded disease" was immediately recognized and quarantined. To make doubly sure, the secretary of the State Board of Health, Dr. A. G. Young, was called at once, and agreed with the local physicians that their diagnosis was right. Every precaution was taken and no more cases followed.

A new rule of the State Board of Health requires all cases of chicken pox to be reported to the Local Health Officers.

About the same number of nuisances as in previous years have been reported. Some have been real nuisances and some mere neighborhood quarrels.

The Board of Health have just established a rule that all slaughter houses, meat and fish markets shall be visited once a month. These places must be kept clean and sanitary, and any failure to comply with the Board of Health will be prosecuted.

Respectfully submitted,

DENNIS PIKE,	}	Members of the Board of Health.

Balance against farm.....	\$635 06	

The past year two of the inmates have died, Mrs. Gertrude G. Merrill and David Holt. Mrs. Merrill had been a great care for the last few years of her life which made it very hard to find anyone to carry on the farm, and we were obliged to give Mr. Chaplin and wife fifty dollars more than last year to get them to stay.

Owing to the early frost we lost fifty to seventy-five dollars worth of sweet corn and some fifty dollars worth of beans. We also had one cow die, so take it altogether we are some two hundred or more dollars behind with the farm that we feel we are not accountable for.

We consider the farm in much better condition for the next year's work than it was last as we have some six acres plowed ready for next year's planting and seeding, two acres being dressed ready for planting corn.

We have also moved quite a lot of stone which were very troublesome on the pieces we were working, and have seeded down some; also cut quite a lot of bushes around the fields, giving the land a much better appearance and we think a benefit.

We have repaired the well from which the supply of water is obtained, which was in a very bad condition, putting on a new covering and cement curbing.

We think the inmates have been well cared for and the stock is looking well and everything about the place has a very good appearance.

INMATES AT TOWN FARM, JAN. 31, 1912.

We have had an unusual amount of sickness among the poor for the past year. Mrs. Sarah King (soldier's widow) died in Exeter and their bill for care during her last sickness made the bill larger than usual. Paul Beaudoin and wife were sick and unable to work for some months before calling for help and did not call for any till they had spent their last dollar. They were in no condition to take to the farm, Mrs. Beaudoin lived about three months after they were a town charge. Mr. Beaudoin is still unable to work, we sent him to the hospital this winter and he is some improved and at present having no help from the town. There is a large sum due from other towns, but the bills we consider all good and some have been paid already, but too late to show in this year's report.

TOWN FARM PROPERTY.

Farm valuation.....	\$2,000 00	
Farm personal property.....	3,100 64	
		<u>\$5,100 64</u>

Since making up the report to Feb. 1, 1912, there has been a number of the bills against other towns for pauper supplies paid, also some have been secured from State, which if received in time would have made the contingent fund some three hundred dollars more than it shows in the report.

In regard to making a lease of the hall from the Norway Building Association, they agree to rent it to town for \$445.00 a year and pay the taxes on the property at a valuation of \$12,000.00. This we think is a fair proposition as we have been able to secure from the State an additional \$125.00, making \$225.00 for the use of the armory.

The State calls for the use of the hall two extra nights a month for the military company, and the Building Association has made improvements in the armory, have furnished heat and water for selectmen's office, and take all things into consideration we feel that the price asked is very reasonable.

In our recommendations we have recommended \$1,500 for rent of hall and other incidental expenses. For years back the miscellaneous bills have amounted to \$1,200 to \$1,500 and over as you will see by your old reports and we see no reason why an appropriation should not be made for this account, and if it is, the contingent fund will take care of itself without any appropriation.

There is no report from Mr. E. D. Millett, road commissioner, this year, as his books were burned at the fire at his place in July.

Agreeable to the instructions of the town at the last town meeting we would make the following recommendations in regard to appropriations for the coming year:

For Support of poor.....	\$1,500 00
Interest charges.....	60 00
Officers' salary.....	2,200 00
State road.....	550 00
Snow breaking	1,800 00
Memorial Day.....	50 00
Moth pests.....	300 00
Rent of hall and incidental expenses.....	1,500 00
Schools, see page 32.....	
Highways and bridges.....	from \$3,000 to 4,000 00
New street off Marston St.....	175 00

Respectfully submitted,

GEO. W. HOLMES,	} <i>Selectmen</i>

This is to certify that we have this day examined the books, accounts and foregoing report of S. W. Goodwin, Treasurer of the town of Norway, and find the same correct, and hereby approve the same.

GEO. W. HOLMES,	}	<i>Selectmen of Norway.</i>
A. J. MILLETT,		
W. A. HERSEY,		

February 7, 1912.

Warrant for Town Meeting

To F. W. Sanborn, a citizen of the town of Norway, in the County of Oxford and State of Maine, Greeting:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town of Norway, qualified by law to vote in town affairs, to assemble at Norway Hall in said Norway, on Monday, the fourth day of March next, at 10 o'clock in the forenoon to act on the following articles, to wit:

Art. 1. To chose a Moderator to preside over said meeting.

Art. 2. To choose a Town Clerk for the ensuing year.

Art. 3. To see if the town will vote to elect one member of the Board of Selectmen for one year, one member of the Board of Assessors for one year and one member of the Board of Overseers of the Poor for one year, one member of each of the three above named boards for two years, and one for three years, and at each annual meeting hereafter to elect one member of each of said boards for a term of three years.

Art. 4. To choose a Board of Selectmen, Assessors, Overseers of the Poor, a Town Treasurer, a Town Agent, a Member of the Board of Superintending School Committee for three years, two trustees of the Norway Public Library, a Tax Collector, a Road Commissioner or Commissioners, and all other necessary town officers for the ensuing year.

Art. 5. To see if the town will vote to exempt the taxes against Mrs. J. E. Budden.

Art. 6. To see if the town will vote to abate the taxes assessed against the heirs of W. S. Pratt for the years 1911 and 1912.

Art. 7. To see what per cent. the town will vote to pay for collecting taxes for the ensuing year.

Art. 8. To see what sum of money the town will grant and raise for the support of the poor for the ensuing year.

Art. 9. To see what sum of money the town will grant and raise to pay interest charges for the ensuing year.

Art. 10. To see what sum of money the town will grant and raise for town officers' salaries for the ensuing year.

Art. 11. To see what sum of money the town will grant and raise for the repairs of highways and bridges for the ensuing year.

Art. 12. To see if the town will vote "yes" or "no" upon the adoption of the provisions of Chapter 112 of the Public Laws of Maine, for the year 1907, as amended by Chapter 69, Public Laws of 1909, also Chapter 21, Public Laws of 1911, and Chapter 183, Public Laws of 1911, relating to the appropriation of money necessary to entitle the town to state aid for highways for the year 1912.

Art. 13. To see if the town will raise and appropriate in addition to the amounts regularly raised and appropriated for the care of ways, highways and bridges, the sum of \$550.00 being the maximum amount which the town is allowed to raise under the provisions of Chapter 112 of the Public Laws of Maine for the year 1907, as amended by Chapter 69, Public Laws of 1909, also Chapter 21, Public Laws of 1911, and Chapter 183, Public Laws of 1911.

Art. 14. To see what sum of money the town will grant and raise to pay snow breaking bills of the winter of 1911 and 1912.

Art. 15. To see what sum of money the town will grant and raise for the support of the common schools for the ensuing year.

Art. 16. To see what sum of money the town will grant and raise to be expended for free text books for the ensuing year.

Art. 17. To see what sum of money the town will grant and raise for repairs on school buildings for the ensuing year.

Art. 18. To see what sum of money the town will grant and raise to be expended for insurance on school property, and for apparatus and appliances for the ensuing year.

Art. 19. To see if the town will instruct its Superintending School Committee to continue to insure any but Village and Lake school property.

Art. 20. To see what sum the town will grant and raise for rent, light and heat of an office for the Superintendent of Schools.

Art. 21. To see what sum of money the town will grant and raise for the support of a free high school for the ensuing year.

Art. 22. To see if the town will instruct the Superintending School Committee to maintain a school in Millettville neighborhood for the ensuing year.

Art. 23. To see what sum of money the town will grant and raise for instruction in music and drawing in common schools of twenty-five pupils or more for the ensuing year.

Art. 24. To see what sum of money the town will grant and raise for instruction in music and drawing to district schools of less than twenty-five pupils for the ensuing year.

Art. 25. To see if the town will instruct the Superintending School Committee to maintain a school on Frost Hill for the ensuing year.

Art. 26. To see if the town will vote to authorize its Superintending School Committee to join either or any of the following towns, to wit: Oxford, Otisfield or Waterford, for the purpose of employing a superintendent of schools in accordance with the provisions of Section 40 to 45 inclusive, of Chapter 15 of the Revised Statutes.

Art. 27. To see what sum of money the town will grant and raise for the support and maintenance of the Norway Public Library for the ensuing year.

Art. 28. To see what sum of money the town will grant and raise for Memorial Day observance, for the ensuing year, to be expended by Harry Rust Post, No. 54, G. A. R.

Art. 29. To see if the town will vote to allow the heirs of the late Samuel P. Frost such taxes as may be assessed upon the property of his estate, if they shall keep the road leading from the house of the said heirs by the house of Mason F. Frost, in a suitable condition of repair for the ensuing year.

Art. 30. To see if the town will vote to fix a date when all taxes for the year A. D. 1912, shall become due and payable to the collector.

Art. 31. To see if the town will vote to charge interest and at what rate, and at what time interest shall commence on taxes not paid.

Art. 32. To see what sum of money the town will grant and raise to protect the town from moth pests.

Art. 33. To see if the town will vote to have all poll taxes, assessed in the year 1912, made payable July 1st, 1912.

Art. 34. To see what sum of money the town will grant and raise for rent of hall and other incidental expenses.

Art. 35. To see what sum of money the town will grant and raise to clear the highway of bushes for the ensuing year.

Art. 36. To see what sum of money the town will grant and raise to replace small plank bridges with stone bridges for the ensuing year.

Art. 37. To see what sum of money the town will grant and raise for building and repairing, or aiding in building and repairing of sidewalks for the year ensuing; and to see if the town will take any other action having reference to sidewalks.

Art. 38. To see if the town will vote to purchase one or more snow rollers.

Art. 39. To see if the town will vote to authorize the selectmen to purchase one or more gravel pits.

Art. 40. To see what sum of money the town will grant and raise for a contingent fund for the ensuing year.

Art. 41. To see if the town will vote to elect a committee of citizens, representing all sections of the town, to serve without pay, said committee to include the selectmen, treasurer, road commissioner and superintendent of schools, which committee shall investigate and consider all parts of the town warrant, especially those calling for appropriations, make recommendations concerning each and submit a report to the next annual town meeting.

Art. 42. To see if the town will vote to discontinue the old road in Millettville leading from the schoolhouse to where the new road comes in at the southwest corner of the J. H. Millett orchard.

Art. 43. To see if the town will vote to continue the same arrangements in regard to the taxes on the Norway Shoe Shop Co., property as in the past.

Art. 44. To see if the town will authorize the municipal officers to sell and execute conveyances of real estate acquired by the town by means of tax deeds.

Art. 45. To see if the town will vote to accept the list of jurors as prepared by the Selectmen, Town Treasurer and Town Clerk.

Art. 46. To see if the town will vote to accept the highway as laid out by the selectmen, Feb. 7, 1912, on petition of H. E. Gibson and others, and provide means to build the same.

Art. 47. To establish the price that the road commissioner or commissioners shall receive for services.

Art. 48. To see if the town will vote to accept the sum of \$300.00 bequeathed to the town of Norway in the will of Milton H. Merriam to care for his burial lot in Norway Center cemetery.

Art. 49. To see if the town will vote to instruct the selectmen to lease of the Norway Building Association for town purposes the hall, armory, assessors' office and basement at present used by the town for a term of ten years from expiration of the last lease.

The Selectmen give notice that they will be in session at the Assessors' office for the purpose of receiving names and correcting the list of voters, on Saturday, the 2d day of March, 1912.

Given under our hands this 16th day of February, A. D., 1912.

Tuberculosis.....	3
Scarlet fever.....	7
Measles	16

The three cases of small pox were confined in two houses and we are pleased to say that the families in which this disease occurred were willing and anxious to do all the local health authorities required of them to prevent the spread of this malady.

Scarlet fever and diphtheria which were so prevalent last year have not been epidemic this year.

Of typhoid fever we have a few cases every year. The common house fly has been proven to be the carrier of most of these cases, and we urge every citizen to see that his house is well protected from this deadly pest by having well fitting screens on all doors and windows.

See that all garbage receptacles are tightly covered and extra care taken about cesspools, closets, and stables. If the fly has free access to the garbage pail and also to the dining table, dire results may follow. "Swât the fly."

Respectfully submitted,

DENNIS PIKE, SIMEON HARRIMAN, H. L. BARTLETT, M. D.,	}	Local Board of Health

Report of the Sealer of Weights and Measures

TO THE SELECTMEN OF THE TOWN OF NORWAY:

I submit herewith my report as sealer of weights and measures for the Town of Norway from Jan. 22, 1912 to Jan. 28, 1913:

Number of scales tested and sealed.....	85
“ “ condemned	2
“ weights tested.....	330
“ “ adjusted	18
“ milk bottles sealed.....	569
“ “ “ condemned.....	15
“ liquid and dry measures tested.....	82
“ “ “ “ condemned	3

Respectfully submitted,

C. S. LIBBY, Sealer of Weights and Measures.

Norway, Me., Jan. 28, 1913.

Report of the Superintendent of Schools

TO THE BOARD OF EDUCATION:

Gentlemen:—I herewith submit my second annual report as Superintendent of Schools. The past year has revealed to me the true condition of our schools. Although I am still convinced that we should have a Commercial Course and an Agricultural Course in our High School, yet it may be that the town has more urgent needs. Since all of our grade teachers have had a course in manual training while in Normal school, it would add greatly to the efficiency and interest in our schools to build an additional room to the present building for such work. In making this addition, it would be no great burden or task to supply an extra room as quarters for the present eighth grade. That would make its present quarters available for a Commercial Course room, which is logically, a High School room. The idea has never been to attempt to present a successful Commercial Course without a special teacher for it. My ideas as to the organizing of such a course will be found in the last "Caduceus," the High School paper for December.

I desire to mention some of the most urgent needs of our common schools. All the schools in town should be supplied with drinking water tanks with faucets, and every student should be supplied with an individual drinking-cup. This will banish the much maligned public drinking-cup from our schools.

Mrs. Elizabeth Stone resigned as teacher at the Norway Lake School at the close of the Fall term. Miss Lizzie M. Johnson succeeds her. There should be a new floor laid at this schoolhouse, some of the student seats repaired, more blackboard room provided and the old boards replaced by better ones, and a new jacketed stove supplied. The latter appliance is not only needed but would afford a means for effective heating and ventilating.

Mrs. Minnie A. Haskell taught at Norway Center during the spring term and was succeeded by Miss Anna J. Cummings for the fall term. Miss Cummings resigned at the end of the fall term. Miss Chrystal B. Harriman succeeds her. The schoolhouse should have minor repairs during the year as well as new blackboards.

Miss Beryl McKeen was engaged as teacher for the spring term at Swift's Corner, but was unable to finish the term, due to ill health, and Miss Annie Richardson finished the term for her. Miss Elsie M. Buck taught the fall term but requested to be transferred to the Chapel for the winter term, as Miss Nora Martin, the former teacher, was to teach the winter term at Pierce, having taught the fall term at Chapel. Miss Blanche Haskell succeeds Miss Buck at Swift's Corner. The exterior of this schoolhouse received one coat of paint during the last summer; also a new hardwood floor was laid and new seats were supplied, both being urgently needed. One large blackboard should now be installed at the front of the room.

Mrs. Ada E. Cox has taught at Noble's Corner for the past year. The schoolhouse is in good repair except that the schoolroom needs refinishing.

Miss Annie Frost was succeeded at the Holt School at the beginning of the fall term by Miss Ora Howe. It seemed advisable during the fall term to transfer the school to the Yaggar schoolhouse, as that was the center of the school attendance, provided we transported the Sodom students to that school instead of transporting them to the Waterford School at Temple Hill. A petition from the parents of nine students who desired to attend the Holt School for the winter term, which number constituted a legal school, made it necessary to open the school. It was necessary, however, to continue the Yaggar School, which had an enrollment of nine. The Holt schoolhouse should have a new floor while the Yaggar schoolhouse should have a new floor and seats. Mrs. C. L. Delano has been engaged to teach the Yaggar school.

Miss Katherine L. Flint has been engaged to teach the Crockett Ridge School. The schoolhouse is in need of several repairs. New blackboards are urgently needed as well as a new floor. The building should have some external repairs and should be painted.

I desire to speak in a general way concerning the duties of teachers, parents and pupils in relation to the manner in which these duties contribute to the success or failure of our schools. The Superintendent and the School Committee, as servants of the people, are responsible for the administration of the schools. The Superintendent has

the direct supervision of the teaching force and the teachers are directly responsible to him as they are working according to his directions and plans. Every teacher is expected to thoroughly prepare her work before the time of presentment so as to be conversant with every idea embodied in the recitation. If this is not done, the ultimate aim of the recitation is lost and it becomes valueless to the students. This is one fault that tends towards the lack of interest in school, poor discipline, and poor attendance. The discipline must of necessity be poor as the student sees no logical reason for his presence. Surely if logical work is lacking then play is its substitute. Nothing can displace thorough preparation and well laid plans, before coming to the school room. Any teacher who desires and expects to succeed must prepare herself for the specific duties involved much more thoroughly than the best student in her school, no matter how well versed she may be in general knowledge. She must handle her school as the individual student and every individual as the school, always working for the common good.

It often happens that a student detaches an incident from a course of events and relates it to parents or guardians. Sometimes it would seem that everyone and everything conspired unjustly against the welfare of that unfortunate individual. In such an event the story should not be discussed before the pupil, thereby encouraging him to continue such stories. In any event the teacher should never be condemned before one of her students whether she be right or wrong lest a hostile attitude be carried to the school. Neither should any story concerning an injustice by the teacher toward pupil, real or imaginary, be discussed before students or neighbors, lest the wrong attitude be returned to the school to increase the burden of the teacher. Since the teacher is responsible to the Superintendent, he standing between parent and teacher, the matter should be brought immediately to his attention that he may remedy the defect. A teacher losing her grasp on students due to the above mentioned evils cannot regain it except by severe measures that would ordinarily be condemned.

During the year it became necessary to make a rule concerning the care of school texts belonging to the town and loaned to the students. The rule was an interpretation of the state law and specifically stated to meet local conditions. It was as follows:—"Whoever misuses the town texts or leaves them where they become damaged or loses them, shall be required to buy new texts, the same to be the property of the purchaser. As long as such student shall be without such text the teacher shall not call on said student and he shall be required to attend school regularly and required to make up all back

work after purchasing text before being allowed to pursue regular class work." This rule seemed reasonable and necessary in order to protect the texts from the wanton abuse. Very few texts have been lost or left out of doors during this school year.

The outline of the course of study was finished as intended and was placed in all the schools at the beginning of the fall term. This has been a source of satisfaction to all concerned. It gives each teacher courage to zealously pursue the outline, knowing that her school is working along the same line as all the other schools in the two towns. The outline was meant to be temporary for a year in order to correct its mistakes and omissions which were sure to occur. After a year's trial it is my intention to complete a thorough course of study.

I have granted permission for teachers in the rural schools to present first year high school subjects whenever it seemed reasonable that they should be presented. It seemed advisable to do this for many ambitious students in the rural districts cannot attend High School for various reasons. This has been done only in schools where it could be done without retarding the progress of the regular students or overburdening the teacher.

I desire to give every community as efficient a school as can be found in any other community. Some of the real problems with which I have to deal are mentioned here in my report. They are the factors in which every citizen can help the schools. I am very grateful to citizens, teachers and the School Board for their willing helpfulness in my work. I mention all these for they are all important factors of a successful school system. However good a school system may be, it cannot succeed without the co-operation of all, and a defective system cannot grow better without the help of all.

Respectfully submitted,

TRUE C. MORRILL, Superintendent.

HIGH SCHOOL CALENDAR FOR 1913-1914.

1913

Winter term from January 6th—March 28th.....12 weeks

Nine days' recess

Spring term from April 7th—June 13th.....10 weeks

DEPARTMENT OF MUSIC AND DRAWING.

Report of the Supervisor, Florence W. Fogg:

Music in the Primary schools has been the usual drill on scale and songs, simple problems in time and the intervals of the scale. All three schools have done the work rather more easily this year than last, and will be ready for sight singing from the chart in the spring term.

The third grade began singing from the music readers in the fall term and have already completed the keys of C and G. Before the close of the school year they will have learned to sing in four sharp keys and four flat keys, and will probably have had a little simple work in two-part singing.

A great effort has been made during the past two years to grade the music according to the standard laid out by the Normal Music Course which we are following. This fall, for the first time, we were able to begin two-part singing where we should,—in the fourth grade. The fifth and sixth grades are also singing two-part music, although the sixth grade should be doing three-part work. This, however, has been impossible this year, but next year's class bids fair to bring the sixth grade, also, to the standard of the course.

The seventh, eighth and ninth grades are singing three-part music. The seventh, although a small class, is very well-balanced and the music sounds well. The eighth grade is also very satisfactory. Results are not as apparent in the ninth grade, owing to the smallness of the class and the unsettled condition of the male voices. Yet, some progress has been made in learning the bass cleff and these pupils will go into the High School not entirely unprepared for the more advanced work there.

The High School chorus is very good this year. The selections have pleased the pupils and they have worked more diligently than at any time in the past two years, and especially the boys.

The work in Drawing has been more satisfactory this year than last. The usual nature work has been taken up in all the grades as long as the specimens were obtainable in the fall. Landscapes, copied in the lower grades, but original in the ninth grade, problems in designing, in accurate measuring, lettering, and much other selected work, have been a part of the work for the year. The eighth and ninth grades have been working on Geometrical problems preparatory to a little work in mechanical drawing. During the remainder of the school year, the study of object drawing will be given, as well as principles of perspective, shading, and plant drawing and design.

The teachers have done faithful work and have given me their hearty co-operation.

Report of the Superintending School Committee

Norway, Me., Jan. 31, 1913.

The Superintending School Committee of the town of Norway, composed of L. Hall Trufant, M. D., member for one year, H. L. Horne, member for two years and W. F. Jones, member for three years, met for organization March 12th, 1912, and elected William F. Jones, chairman.

On the 20th day of March, 1912, there was a joint meeting of the Superintending School Committees of Norway and Waterford. W. F. Jones was chosen chairman, and L. Hall Trufant, M. D., secretary.

We recommend a brick sidewalk from the entrance of the High School Building to the street. We regret that the appropriation for repairs has been exceeded. An emergency call for heating and ventilation was the cause. We now have a first-class building, well heated and ventilated, with hard wood floors throughout. We should need nothing further until the building is re-shingled. We recommend the raising of the following amounts for 1913-14:

For Common Schools.....	\$2,500 00
Free text books.....	700 00
Repairs.....	600 00
Insurance, apparatus, appliances.....	600 00
Free High School.....	2,650 00
Drawing and music.....	550 00
Office for Superintendent.....	62 00

Balance against farm.....	\$ 595 91	

In allowing Mrs. Libby to go to the farm, would say that being a pensioner we had no right to take her there but as her daughter, Mrs. Bridges, was going she did not want to be separated from her and wanted to go there and board. We understood at the time she went that she was to pay three dollars per week for board from her pension money, but after getting her pension she claims she never agreed to pay any board and we could get nothing from her. At present we feel it is much cheaper for the town to keep her there, so we have allowed her to remain. The farm should be credited with her board at \$3.00 per week which would amount to \$36.00 which would leave the balance against the farm, \$559 91.

Things have run smoothly at the farm the past year, and the inmates have been well cared for.

The stock is in good condition and looking well and things about the place have quite a thrifty appearance, and we consider that Mr. Adams and wife have been good caretakers of the farm and inmates.

We have put in a good silo which is quite a saving in feed, also a separator which we think has been quite a benefit in handling the milk product.

We have been obliged to take several more inmates to the farm as may be seen by the following list, and as they are all quite aged and infirm it makes the work and expense in the house much more than the first of the year.

INMATES AT TOWN FARM, JAN. 31, 1913.

Lola Bennett.....age 52	Prentiss Buck.....age 62
Mrs. Sarah Bridges.....age 62	George Webber.....age 60
	Daniel Davis.....age 82

\$600 66

The bills for the town poor away from the farm have been smaller this year than last, but we had an unfortunate case in Mrs. Bridges and her mother. Mrs. Bridges fell and broke her hip, last winter, and was a big expense to the town until we were able to move her to the farm.

This is to certify that we have this day examined the books, accounts and foregoing report of S. W. Goodwin, Treasurer of the town of Norway, and find the same correct, and hereby approve the same.

GEO W. HOLMES,	}	<i>Selectmen of Norway.</i>
A. J. MILLETT,		
W. A. HERSEY,		

February 8, 1913.

NOTE—Copy of warrant for town meeting to be held March 3rd, 1913, containing all articles that have been brought in up to Feb. 14, 1913.

Warrant for Town Meeting

To F. W. Sanborn, a citizen of the town of Norway, in the County of Oxford and State of Maine, Greeting:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of Norway, qualified by law to vote in town affairs, to assemble at Norway Hall in said Norway on Monday, the third day of March, next at 10 o'clock in the forenoon to act on the following articles to wit:

Art. 1. To choose a moderator to preside over said meeting.

Art. 2. To choose a Town Clerk for the ensuing year.

Art. 3. To see if the town will vote to elect one member of the Board of Selectmen for one year, one member of the Board of Assessors for one year, and one member of the Board of Overseers of the Poor for one year, one member of each of the three above named boards for two years, and one for three years, and at each annual meeting hereafter to elect one member of each of said boards for a term of three years.

Art. 4. To choose a Board of Selectmen, Assessors, Overseers of the Poor, a Town Treasurer, a Town Agent, a Member of the Board of Superintending School Committee for three years, two trustees of the Norway Public Library, a Tax Collector, a Road Commissioner or Commissioners, and all other necessary town officers for the ensuing year.

Art. 5. To see if the town will vote to abate the taxes assessed against the heirs of W. S. Pratt for the year 1913.

Art. 6. To see what per cent. the town will vote to pay for collecting taxes for the ensuing year.

Art. 7. To see what sum of money the town will grant and raise for the support of the poor for the ensuing year.

Art. 8. To see what sum of money the town will grant and raise for town officers' salaries for the ensuing year.

Art. 9. To see what sum of money the town will grant and raise for the repairs of highways and bridges for the ensuing year.

Art. 10. To see if the town will vote "yes" or "no" upon the adoption of the provisions of Chapter 112 of the Public Laws of Maine, for the year 1907, as amended by Chapter 69, Public Laws of 1909, also Chapter 21, Public Laws of 1911, and Chapter 183, Public Laws of 1911, relating to the appropriation of money necessary to entitle the town to state aid for highways for the year 1913.

Art. 11. To see if the town will raise and appropriate in addition to the amounts regularly raised and appropriated for the care of ways, highways and bridges, the sum of \$550.00 being the maximum amount which the town is allowed to raise under the provisions of Chapter 112 of the Public Laws of Maine for the year 1907, as amended by Chapter 69, Public Laws of 1909, also Chapter 21, Public Laws of 1911, and Chapter 183, Public Laws of 1911.

Art. 12. To see what sum of money the town will grant and raise to pay snow breaking bills of the winter of 1912 and 1913.

Art. 13. To see what sum of money the town will grant and raise for the support of the common schools for the ensuing year.

Art. 14. To see what sum of money the town will grant and raise to be expended for free text books for the ensuing year.

Art. 15. To see what sum of money the town will grant and raise for repairs on school buildings for the ensuing year.

Art. 16. To see what sum of money the town will grant and raise to be expended for insurance on school property, and for apparatus and appliances for the ensuing year.

Art. 17. To see if the town will instruct its Superintending School Committee to continue to insure any but Village and Lake school property.

Art. 18. To see what sum the town will grant and raise for rent, light and heat of an office for the Superintendent of Schools.

Art. 19. To see what sum of money the town will grant and raise for the support of a free high school for the ensuing year.

Art. 20. To see if the town will instruct the Superintending School Committee to maintain a school in Millettsville neighborhood for the ensuing year.

Art. 21. To see what sum of money the town will grant and raise for instruction in music and drawing in common schools of twenty-five pupils or more for the ensuing year.

Art. 22. To see what sum of money the town will grant and raise for instruction in music and drawing to district schools of less than twenty-five pupils for the ensuing year.

Art. 23. To see if the town will instruct the Superintending School Committee to maintain a school on Frost Hill for the ensuing year.

Art. 24. To see what action the town will take in relation to the purchase of land adjacent to the High school lot owned by the Solomon I. Millett heirs, and to provide funds for the said purchase.

Art. 25. To see what sum of money the town will grant and raise for the support and maintenance of the Norway Public Library for the ensuing year.

Art. 26. To see what sum of money the town will grant and raise for Memorial Day observance, for the ensuing year, to be expended by Harry Rust Post, No. 54, G. A. R.

Art. 27. To see if the town will vote to fix a date when all taxes for the year, A. D., 1913, shall become due and payable to the collector.

Art. 28. To see if the town will vote to charge interest and at what rate, and at what time interest shall commence on taxes not paid.

Art. 29. To see what sum of money the town will grant and raise to protect the town from moth pests.

Art. 30. To see if the town will vote to have all poll taxes assessed in the year 1913, made payable July 1st, 1913.

Art. 31. To see what sum of money the town will grant and raise for rent of hall and other incidental expenses.

Art. 32. To see if the town will vote to raise money by an issue of town bonds or otherwise for a sum not exceeding thirty-five thousand dollars for the purpose of constructing a compressed concret or other improved street from the head of Main Street in Norway village to the Tannery Bridge, so called, or further, and sidewalks; said question to be decided by a yes and no vote of the legal voters of said town, also determine the rate of interest said bonds shall bear, and the time of the payment thereof, and to perform any act necessary to effect a legal issue of said bonds.

Art. 33. To determine under whose supervision said money shall be expended, to authorize the contracting for the work and materials for such construction and to give all necessary and legal power therefor.

Art. 34. To see if the town will vote to purchase a stone crusher and provide means for the same. To be decided by a yes and no vote.

Art. 35. To see what sum of money the town will grant and raise to clear the highway of bushes.

Art. 36. To see if the town will grant and raise \$150.00 to reduce the grade of Frost Hill, at Noble's Corner, provided \$50.00 is otherwise contributed in labor, the whole to be expended by the Road Commissioner.

Art. 37. To see if the town will grant and raise \$150.00 to reduce the grade of Freeman Hill, provided \$50.00 is otherwise contributed in labor, the whole to be expended by the Road Commissioner.

Art. 38. To see if the town will vote to elect a committee of citizens, representing all sections of the town, to serve without pay, said committee to include the selectmen, treasurer, road commissioner and superintendent of schools, which committee shall investigate and consider all parts of the town warrant, especially those calling for appropriations, make recommendations concerning each and submit a report to the next annual town meeting.

Art. 39. To see what action, if any, the town will take towards the erection of a soldiers' monument, to provide a location for the same, and take any other necessary action in relation thereto.

Art. 40. To establish the price that the road commissioner or commissioners shall receive for services.

The Selectmen give notice that they will be in session at the Assessors' office for the purpose of receiving names and correcting the list of voters, on Saturday, the 1st day of March, 1813.

For complete warrant see NORWAY ADVERTISER of Feb. 21.
